--	-------------------------------------

- Worked on testing the UI of the Kisaan Khazana Mobile Application
- Load tested the backend API written in PHP using Postman client

---

<b>Software Development Cell, KJSIEIT</b> <i>Summer Intern</i>	Mumbai, IN June 2018 - August 2018
---	---------------------------------------

- Built an MVC architecture in PHP, with a client written in HTML, CSS and JS for the Kisaan Khazana Admin application

---

<b>Software Development Cell, KJSIEIT</b> <i>Cloud Intern</i>	Mumbai, IN Jan 2018 - June 2018
--	------------------------------------

- Setup a private cloud from scratch using OpenStack for the purpose of maintaining final year projects
- Wrote a PHP interface to interact with the cloud for creating instances with ease

## SKILLS

---

Languages:	JavaScript, Java, Bash, HTML5, CSS
Frameworks & Tools:	Node.js, REST, MongoDB, AWS, Travis CI, NGINX

## RELEVANT PROJECTS

### **Qripsy** *Node.js, Express.js, MongoDB, Heroku*

A one-stop platform for food bloggers to showcase their cooking skills in photos & videos. Created a full-fledged backend API to handle CRUD operations.

### **Pothole Go** *Node.js, Bash, MongoDB*

An application used to calculate various parameters of a pothole by capturing a single image from a smartphone. Built a pipeline between the client and the model.

## ACHIEVEMENTS

---

<b>AIDL Hackathon 2020</b> Won the 1st prize for creating a cross platform application which detects a bill/invoice from given images	Unifynd March 2020
--	-----------------------

---

<b>Hack Stomp</b> Places 2nd for coming up with a solution for a problem statement under the agricultural sector February 2020	UCOE
--	------

---

<b>Campus Hackathon 2020</b> Secured the 1st prize for building a proof of concept of a truck pooling system	KJSIEIT January 2020
---	-------------------------
